

AVIATION STRATEGIES
INTERNATIONAL

STRATEGIC GUIDANCE | looking ahead for you

We provide each client with tailored, objective, empowering and strategic advisory services that capitalize on international best practices in the field of civil aviation.

Management Competency Building and Enterprise Performance Enhancement for Aviation Executives

I would like to thank Aviation Strategies International (ASI) for its role as the AMPAP Administrator and for its contribution to the success of the Programme since its onset. During the past years, the AMPAP Programme has greatly contributed to the critical modernization process of the global airport community by improving the skills and knowledge of a generation of airport leaders.

Juan Carlos Salazar
ICAO Secretary General

Thanks to your support and ASI Aviation Strategies International in providing assessment; strategic advisory and competency development services in (the) field of Aviation across the globe. ASI has been contributing to the extraordinary and visionary joint ACI-ICAO (AMPAP) accreditation programme for professionals worldwide (..) with encouragement of airport community.

Aimen bin Ahmed Al Hosni

GLOBAL MEGATRENDS AND AVIATION: THE PATH TO FUTURE-WISE ORGANIZATIONS

"In aviation, we readily adapt to new technology but often do so in isolation from broader contextual factors. This book on megatrends will drive our understanding of the potential scenarios and shock us out of our past complacency."

— Sir Brian Burridge, Former CEO, Royal Aeronautical Society
